IIM Kozhikode is one of the premier management schools established by the Government of India, dedicatedly devoted to nurturing future business leaders in teaching, learning, consulting, research, and innovation. Founded in 1996, as the 5th IIM of the country, the growth story of IIM Kozhikode is not just about the numbers, but also about some remarkably innovative initiatives that have set the benchmark for other institutions in the country.

The Institute is currently on a high growth trajectory, offering the widest range of academic programmes in the field of management education and has consistently brought notable innovations to programme design and delivery. Many such innovations were emulated by others, and IIM Kozhikode takes pride in being a change agent that transformed the higher education space in India. The Institute has achieved such success only through academic rigor, research focus, and education excellence making brand IIM Kozhikode a household name in India.

IIM Kozhikode has also pioneered initiative affirmative action to bring in gender parity in its flagship programme. From a historical low of less than 10%, the Institute touched a high of 54% women in the PGP batch 17 (2013-2015) and went on to repeat the feat in the current academic year (2020-2022).

The picturesque, oxy-rich campus nestled in on two hillocks in the Kunnamangalam Area of the ancient city of Calicut in Kerala is also home to the first museum dedicated to Indian Business (established in 2013) in the country.
