...Reimagining India; Shaping Worldviews

Indian Institute of Management, Kozhikode takes pride in announcing the 4th edition of International Conclave on ‘Globalizing Indian Thought (GIT2023)’ at Mysore. The Conclave theme centres around the diverse contributions made by India to the world, with a permanent impact. With its overarching theme of Globalizing Indian Thought, GIT 2023 will focus on “Indian Knowledge systems, Culture and Management.”

Globalizing Indian Thought 2023

The Indian Institute of Management, Kozhikode, takes pride in announcing the 2023 edition of Globalising Indian Thought at Mysore (details coming soon).

Indian knowledge systems, culture, and management are all interconnected. Indian knowledge systems have an extensive and illustrious history that dates back thousands of years. These systems have evolved in response to the unique challenges and opportunities of Indian society. They offer a wide range of insights into human nature, society, and the universe.

Indian culture is also profoundly rooted in these knowledge systems. Indian culture is characterised by a strong emphasis on spirituality, community, and harmony. These values are reflected in the way Indians think about management and leadership.

Indian management practises are, in turn, influenced by Indian culture. For instance, Indian managers frequently place a heavy emphasis on consensus decision-making and employee relationships. They also tend to be less risk-averse and more patient than their Western counterparts.

The Conclave theme, “Indian Knowledge Systems, Culture, and Management,” is an opportunity to explore the interrelationships between these three elements. It is also an opportunity to learn from the rich and varied traditions of India.

The Conclave will provide scholars, practitioners, and policymakers with a valuable opportunity to learn from one another and exchange ideas on how to enhance management and leadership in India. It will also be a chance to celebrate and glorify the Indian ethos.

G I T 2023 promises to be an engaging and fruitful experience!

The conclave invites papers around the following tracks (but not limited to):

Indigenous Knowledge
Systems

Management practices
and their integration with
modern theories

Leadership styles,
