Mindful Leadership is about surviving and thriving in a volatile, uncertain and non-linear world. Economic activity in the world is growing exponentially with the world GDP poised to touch 100 trillion dollars. Corporates need reflection time and dedicated attention to developing high potential leaders who can navigate and create value in the changing world. The core philosophy behind Mindful Leadership is that businesses do not compete, business leaders do.

"His ideas and discoveries will be invaluable for leaders throughout the world who are committed to authenticity in their leadership."

- Prof. Bill George, Harvard Business School
