

Guidelines for Paper Presenters

LCD Projectors will be available for ppt or pdf presentations. Please bring your presentation in a pen drive and hand it over to the session coordinator (typically an IIMK doctoral student) when requested. The session coordinator will load your file on the computer and return your pen drive.

Please check your session time and room number. Plan to reach the designated classroom at least 5 minutes prior to the commencement of the session and introduce yourself to the session co-chairs and coordinator whom you will find at the designated classroom.

The session co-chairs will divide the available time equally to all speakers and decide the format of the session.

It is really critical that you stay within the time that is allocated for your presentation in order to keep the programme on track . The session co-chairs are in full control of the time management. Please respect their directions.

Wish you an enjoyable session and conference.
